

ABSTRACT

A hot plate unit capable of uniformly cooling a hot plate within a short period of time. The hot plate unit (1) includes a hot plate (3) including a heating element (10) and a casing (2) that supports the hot plate. The hot plate and the casing define an internal space S1. Two intake ports (17) and two lower opened portions (31) are formed in the bottom wall (2a) of the casing.
